

K-Love radio station is a station that I not only listen to on a daily basis but feel it is important enough that I also financially support it on a monthly basis. I feel that displacing K-Love radio station would have a discouraging effect on the community. Thousands of people listen to and are encouraged by what they hear each time they tune in. The fact that it is solely supported by listeners should be an indication of how it is appreciated. I hope that you will find a way to allow this radio station to remain on the air and be a benefit of encouragement to it's supporters and anyone who listens in by chance.
